

Castaway Villa

Total Area – 461 sqm / 4,962 sqft | Max. Occupancy – Two Adults and Two Children

The first of its kind in the Maldives, the Castaway Villa is an exceptional floating hideaway that offers the ultimate in overwater living. Currently only found at Soneva Secret 2024, it has been consciously designed to be unaffected by wave movements and can only be accessed by sea.

Spread across two floors, this expansive villa features Soneva's signature saltwater pool and curved slide straight into the lagoon, as well as a retractable roof over the master bedroom for stargazing. The master ensuite bathroom features a sunken bathtub, shower, enclosed toilet and dressing room. An additional double bedroom with an ensuite shower room and toilet is situated at the back of villa, alongside a fully equipped gym overlooking the surrounding turquoise waters. Also on the ground floor is a pantry and minibar, covered dining area, family-sized TV lounge with a large daybed and sunken seating.

Upstairs, a spa treatment room, waterslide into the lagoon and an al fresco dining sala complete this private, exclusive space.
