Medicinal Herb Bath (In Villa)

Duration: 60 minutes

Components: Herbal bath

Immerse yourself into a ritualistic herbal bath, layered with both fresh and dry elements, including a variety of medicinal herbs and flowers, essential oils, plant milks, and Epsom salts. This treatment is designed to boost mood, calm the mind, soothe sore muscles and joints, open pores, soften skin, and promote a more restful sleep.

BodyStream

Duration: 60 minutes

Components: Relaxation whilst wearing CO2 suit

The BodyStream system is designed to help bathe the entire body (up to the neck) in carbon dioxide gas. This system offers a wide range of benefits including an increase in energy, reduction in stress and anxiety, reduction in cellulite, increased metabolic rate, reduction in body pain, increased circulation, rapid healing of wounds and skin sensitivities, aiding in better sleep, weight loss and enhanced performance.

Regenerative Injections

Prolotherapy

Duration: 30 minutes

Components: Injection

Prolotherapy is a non-surgical treatment for chronic musculoskeletal pain from previous injuries or wear and tear. It is used to repair damaged ligaments, tendons or joints by stimulating your body's own healing response to repair damaged tissue.

Trigger Point Injections

Duration: 30 minutes

Components: Injection

When a muscle becomes tight, torn, or bruised, the point of origin for the injury is known as the trigger point. Trigger points are caused when a muscle becomes tight, torn or bruised, and can lead to headaches, migraines and other bodily pain. Treating the pain at the trigger point is highly effective, helping the muscle relax and reducing inflammation. After a trigger point injection, blood flow to the area improves, flushing toxins, lactic acid and debris from the area, and allowing nourishing and oxygenated fresh blood to perfuse.

Prolozone Injections

Duration: 30 minutes

Components: Injection

Prolozone combines the principles of neural therapy, Prolotherapy and ozone therapy, injecting a combination of procaine, anti-inflammatory medications, homeopathics, vitamins, minerals, proliferatives and ozone/oxygen gas into degenerated or injured joints and painful areas. Prolozone injection therapy effectively treats arthritic joints, spinal and joint pain, trigger points and a number of other ailments.

Perineural Therapy

Duration: 30 minutes

Components: Buffered 5% dextrose

Perineural therapy is conducted with a small injection of dextrose into the skin to help regenerate the nerve, and reduce pain in the body. This treatment is best in a series of three, as each treatment has compounding effects on the other, allowing the nerve to heal and alleviate pain in that area.

Platelet-Rich Plasma (PRP) Injections

Duration: 60 minutes

Components: Injection using treated blood

This treatment takes a small sample of your blood, which is placed in a centrifuge to create platelet-rich plasma. When injected into a target area, this can trigger tissue regeneration and stimulate the healing process, speeding up the recovery time for injuries and decreasing pain.

Aesthetic Treatments

Microneedling with Hyaluronic Acid

Duration: 60 minutes

Components: Skin needling

This non-invasive procedure uses tiny needles to create micro channels in the skin. This activates the body's natural immune, sending blood and growth factors to the area, increasing collagen production, reducing fine lines and wrinkles and tightening skin. This treatment is effective at reducing of acne scarring, sun damage and stretch marks.

Microneedling with PRP

Duration: 75 minutes

Components: Skin needling with PRP

Combining microneedling with platelet-rich plasma introduces growth hormone and growth factors to significantly increase the rate of tissue regeneration. PRP also helps to speed up the healing process while stimulating the skin to repair and renew itself at a faster rate, increasing the skin's elasticity, improving signs of ageing and addressing sun damage.

Add Ons: Intradermal Injection for 15 minutes / Ozone Injections for 15 minutes

Hair Restoration with PRP

Duration: 60 minutes

Components: Intradermal injections with PRP

A non-surgical procedure, platelet-rich plasma is effective in treating thinning hair and slowing or stopping the progression of hair loss. The treatment can tackle both male and female pattern baldness and alopecia as it encourages the growth of existing hair follicles, making your hair appear fuller and healthier without resorting to surgery.

Lip Enhancement

Duration: 30 minutes

Components: Nano needling and injections

Microneedling with PRP is used to provide a gentle exfoliation, while reducing lip lines and Fordyce spots. Injections can also be used to stimulate collagen leaving lips looking plump and hydrated.

Localised Fat Reduction

Duration: 60 minutes

Components: Injection

Medical ozone can be used to reduce localised pockets of fatty tissue, including the chin, abdomen, flanks, thighs, and upper arms. This treatment is also effective at reducing cellulite and tightening areas of skin laxity. Optimal results typically achieved after 6 to 12 treatments, depending on the area treated and individual response.

Operating with relevant permissions from the Maldives Food and Drug Authority and employing world-class standards, our dedicated team of on-site doctors have international experience and expertise in stem cell treatments. They work closely with each guest to create an entirely bespoke pathway to true health and wellness.

All the stem cells used in Soneva Soul treatments are supplied by Sweden-based Cellcolabs, a biotech company that is dedicated to increasing global access to stem cell treatments. Built on two decades of extensive, unparalleled research at the Karolinska Institute, they specialise in high-quality production of bone marrow-derived mesenchymal stem cells (MSCs) with proven efficacy.

To ensure eligibility for any stem cell treatment, a complimentary consultation with our Integrative Medical team is required.

Vitality by Soneva Soul

Soneva Soul specialises in personalised regenerative regimens designed around healthy ageing and vitality. These usually involve one targeted stem cell treatment, administered every few years, to enhance the potential for a longer, healthier life.

Intra-Articular Orthopedic Injections

This treatment sees stem cells injected into a target area, stimulating the body to repair damaged tissue and accelerate recovery.

Topical (with Microneedling)

Safely creating micro-channels to the skin's surface helps deliver stem cells deeper into the skin layers to help regenerate and reveal smooth, refreshed skin with long-lasting results.

IV Systemic Stem Cells

Stem cell infusions via an intravenous (IV) drip helps reduce inflammation, promote tissue regeneration and improve immune function.

Intradermal Injections

Stem cells can be used for various aesthetic purposes including skin rejuvenation, reduction in scarring, improved collagen production and hair restoration.

Traditional Chinese Medicine

Consultations

Comprehensive Consultation

Duration: 60 minutes

Components: Verbal consultation followed by a recommended treatment plan

A consultation with our Traditional Chinese Medicine (TCM) doctor is required to ensure the correct treatment path is followed and to ensure the best results. In TCM the mind, body and spirit are not viewed as separate but as interconnected structures that work together to keep the body functioning. Your doctor will consult on every aspect of your health, explain appropriate nutritional recommendations, introduce effective supplements, lifestyle changes and sleep hygiene, and recommend the appropriate course of treatment, with integrated interventions of regenerative procedures. Treatments may include acupuncture, electro-acupuncture, cupping, herbal remedies and or moxibustion.

Telemedicine consultations are also available. Please contact the Soneva Soul team for more information.

Treatments

Follow-Up Acupuncture

Duration: 75 minutes

Components: Insertion of fine needles into strategic points of the body

From tension headaches and chronic lower back pain to allergies, digestive issues and stress and anxiety, a customised treatment will be tailored to your individual needs. Each acupuncture treatment activates the body's innate healing capabilities to restore optimal function to the body. While many find relief after a single session, a series of treatments is often recommended to achieve optimal results and sustained relief.

Electro-Acupuncture

Duration: 60 minutes

Components: Electrodes of microcurrent applied to specific acupuncture points

An advanced technique that amplifies traditional acupuncture's effects. A gentle electrical current invigorates acupuncture points to minimise pain, calm nerves, boost circulation and reduce swelling. Electro-acupuncture is particularly advantageous for acute and chronic sports injuries, effectively addressing issues affecting joints and tendons.

Auricular Acupuncture

Duration: 30 minutes

Components: Application of needles, magnets, tiny seeds or crystals

A specialised practice focusing on the rich network of acupuncture points on the ear. This unique approach offers a range of benefits in managing anxiety, stress, depression, pain relief, post-traumatic stress disorder, internal organ balance and much more. This treatment is well-suited for children and anyone who feels nervous about having a traditional acupuncture treatment.

Facial Rejuvenation with Acupuncture

Duration: 60 minutes

Components: Insertion of fine needles into the facial muscles

Fine needles are expertly inserted into facial muscles, fine lines and wrinkles to improve facial muscle tone, boost collagen production and enhance circulation and elasticity. The outcome is a more youthful, radiant complexion with a refreshed and plump appearance.

Cupping

Duration: 30 minutes

Components: Application of cupping tools on strategic points and meridian pathways of the body

Traditional Chinese cupping is widely used to treat pain and musculoskeletal injuries, relax muscles, enhance detoxification, stimulate the immune system and relieve inflammation. Negative pressure is created in the cup to encourage blood flow and increase circulation. Benefits can often be felt immediately during and after cupping. Due to the vacuum effect of the cups, marks may appear on the skin which typically heal within two to five days.
